

7 STEPS for a **SAFE** IDENTIFICATION

1

TELL your **FULL NAME** and **BIRTH DATE**, **BEFORE** any consultation, surgery, blood transfusion, laboratory workout sampling, XR, CAT scan, any other exam or health care.

2

ALWAYS bring an identification card with your **PHOTO** on it.

3

Always **UPDATE** your identification data records.

4

Do not allow any other one to use your personal documents. They are **NON-TRANSMISSIBLE**.

5

CONFIRM if your personal data in all the **DOCUMENTS** that you deliver or receive (prescriptions, requisitions, reports...).

6

CONFIRM if your identification data is correct on any **ID BRACELET** that we may put on you in case of hospital admission.

7

Always **ALERT** when ever it looks like something is not right with your identification data.

YOUR SAFETY IS OUR PRIORITY!
